### 09/20/22

# **VALLEY COUNTY PLANNING & ZONING**

**Detailed Project description:** 

My wife and I built our cabin for a couple reasons:

#1 We wanted a place to retire in the mountains and wanted our place paid for when that time comes.

#2 We wanted a big enough place for our extended family to get together. I am the youngest of 6 kids, and my wife is the second of 5 kids, so by having mom, dad, spouses and a few kids, getting to 26 people is pretty easy.

We needed to find a stream of income to help pay it off faster, so we went with the short term rental.

We built this beautiful place, that is unique, that we love, and are very proud of.

We have learned a lot in the 2 years we have had the short-term rental with 12 people, we are now asking for approval for 26 people, that is how many people can sleep in beds.

Most people that have come to our place have this as their destination for their family reunion, they come to stay and when they do leave, they take fewer cars when they run around town. They may arrive in several cars but leave in less. Some guests do go into town and spend money so in return they are bringing money to the community as well.

We have a 3-car garage built into a game room for all ages, 2 living rooms and lots of deck space and a public beach out the back door. Many people just stay here and play on the beach. Some others go skiing or snowmobiling. Guests can snowmobile out the back door and cross public land to get to the trailhead. We have a lot of off-street parking to accommodate for snowmobiling, boats, 4-wheelers, and etc.

We don't allow guests to run round and round the property on motorcycles or ATVs making dust; they can drive to the trailhead from here as well. We are bordered on 2 sides by Bureau of Rec. (BOR) with a sign that BOR installed showing the rules.

We combined 3 lots totaling 1.8 acres, putting the cabin in the middle and using one lot for parking on the west side and the other lot, east side, for privacy and space. We have planted over 100 trees on that lot alone and built a berm to keep all of our drain water on our side.

We had all 3 lots professionally leveled at the same time for drain water to pool up on the West and East lots. We have planted over 200 trees total for privacy.

We have a list of rules that are posted in the cabin and also in every bedroom.

We have 2 driveways/entrances that come off Roseberry Road, the East driveway is great for coming in and the West driveway is great for going out. People can see the entire corner with no blind spots.

We rent the cabin out around 120 days a year, so about 1/3 of the time it's rented. Our cabin is on 3 lots, so instead of having 3 homes here we have one. Water and sewer supply is not affected near as much as 3 full time houses.

We don't allow events, weddings, etc. We have all requirements/accommodations for the 12 guests and have not had one complaint in 2 years. We are asking for 26 people so more families can come together to enjoy this beautiful cabin and area and make lasting memories together.

# Irrigation Plan (Idaho Code 31-3805)

	(idditio obdo o i obdo)
	This land: Has water rights available to it  is dry and has no water rights available to it.
ex su	who Code 31-3805 states that when all or part of a subdivision is "located within the boundaries of an isting irrigation district or canal company, ditch association, or like irrigation water deliver entity no bdivision plat or amendment to a subdivision plat or any other plat or map recognized by the city county for the division of land will be accepted, approved, and recorded unless:"
A.	The appropriate water rights and assessment of those water rights have been transferred from said lands or excluded from an irrigation entity by the owner; or
B.	The owner filing the subdivision plat or amendment to a subdivision plat or map has provided for the division of land of underground tile or conduit for lots of one acre or less or a suitable system for lots of more than one acre which will deliver water to those landowners within the subdivision who are also within the irrigation entity with the appropriate approvals:
	<ol> <li>For proposed subdivisions located within an area of city impact, both city and county zoning authorities must approve such irrigation system.</li> </ol>
	2. For proposed subdivisions outside of negotiated areas of city impact, the delivery system must be approved by the Planning and Zoning Commission and the Board of County Commissioners with the advice of the irrigation entity charged with the delivery of water to said lands (e.g., irrigation district).
ad in	better understand your irrigation request, we need to ask you a few questions. Additional pages can be ded. A list of the map requirements follows the short questionnaire. Any missing information may result the delay of your request before the Planning and Zoning Commission and ultimately the approval of our irrigation plan by the Board of County Commissioners as part of final plat approval.
1.	Are you within an area of negotiated City Impact?YesnoNo
2.	What is the name of the irrigation district/company and drainage entities servicing the property?
	Drainage:
3.	How many acres is the property being subdivided?
4.	What percentage of this property has water?
5.	How many inches of water are available to the property?
6.	How is the land currently irrigated?
7.	How is the land to be irrigated after it is subdivided?    surface   sprinkler   irrigation well  above ground pipe   underground pipe
8.	Describe how the head gate/pump connects to the canal and irrigated land and where ditches &/or pipes go.
9.	Is there an irrigation easement(s) on the property?   Yes  No

We have 3 lots, the cabin is built on the center lot and the 2 side lots collect the water.
How do you plan to process this storm water and/or excess irrigation water prior to it entering the established drainage system? (i.e. oil, grease, contaminated aggregates)
Irrigation Plan Map Requirements
The irrigation plan <u>must be on a scalable map</u> and show all of the irrigation system including all supply and drainage structures and easements. Please include the following information on your map:
☐ All canals, ditches, and laterals with their respective names.
<ul> <li>Head gate location and/or point of delivery of water to the property by the irrigation entity.</li> <li>Pipe location and sizes, if any</li> </ul>
☐ Rise locations and types, if any.
<ul> <li>Easements of all private ditches that supply adjacent properties (i.e. supply ditches and drainage ways)</li> <li>Slope of the property in various locations.</li> </ul>
□ Direction of water flow (use short arrows on your map to indicate water flow direction → ).
<ul> <li>□ Direction of wastewater flow (use long arrows on your map to indicate wastewater direction → ).</li> <li>□ Location of drainage ponds or swales, if any where wastewater will be retained on property</li> <li>□ Other information:</li> </ul>
Also, provide the following documentation:
☐ Legal description of the property.
☐ Proof of ownership.
☐ A written response from the irrigation entity and/or proof of agency notification.
<ul> <li>Copy of any water users' association agreement which shows water schedules and maintenance responsibilities.</li> </ul>
☐ Copy of all new easements ready for recording (irrigation supply and drainage).
☐ If you are in a city area of impact, please include a copy of the approvals by the city planning and zonin commission and city council of your irrigation plan.
======================================
I, the undersigned, agree that prior to the Planning and Zoning Department accepting this application, I am responsible to have all the required information and site plans.
I further acknowledge that the irrigation system, as approved by the Planning and Zoning Commission and ultimately the Board of County Commissioners, must be <u>bonded</u> and/or <u>installed</u> prior to the recording of the plat or building permit.

# VALLEY COUNTY WEED CONTROL AGREEMENT

The purpose of this agreement is to establish a cooperative relationship between Valley County and the undersigned Cooperator to protect the natural and economic values in the Upper Payette River watershed from damages related to the invasion and expansion of infestations of noxious weeds and invasive plants. This is a cooperative effort to prevent, eradicate, contain and control noxious weeds and invasive plants on public and private lands in this area. Factors related to the spread of weeds are not related to ownership nor controllable at agency boundaries. This agreement formalizes the cooperative strategy for management of these weeds addressed in Valley County's Integrated Weed Management Plan.

In this continuing effort to control Noxious Weeds, Valley County Weed Control will consult with the undersigned Cooperator and outline weed identification techniques, present optional control methods and recommend proper land management practices.

The undersigned Cooperator acknowledges that he/she is aware of any potential or real noxious weed problems on his/her private property and agrees to control said weeds in a timely manner using proper land management principles.

Valley County Weed Department can be contacted at 208-382-7199.

# **IMPACT REPORT** (from Valley County Code 9-5-3-D)

### You may add information to the blanks below or attach additional sheets.

- An impact report shall be required for all proposed Conditional Uses.
- Answer all questions. Mark N/A if the question is not applicable to your application.
- The impact report shall address potential environmental, economic, and social impacts and how these impacts are to be minimized as follows:
- 1. Traffic volume, character, and patterns including adequacy of existing or proposed street width, surfacing, alignment, gradient, and traffic control features or devices, and maintenance. Contrast existing with the changes the proposal will bring during construction and after completion, build-out, or full occupancy of the proposed development. Include pedestrian, bicycle, auto, and truck traffic. We have had this short term rental for 2 years now, we have found that most families, mom, dad, kids and grandkids, come as a family reuinion, Our Cabin is the destination, We have a beach out the back door, snowmobiliong out the back door. When people do go out they usually fill the cars and take less cars with more people in them.
- 2. Provision for the mitigation of impacts on housing affordability.
- Noise and vibration levels that exist and compare to those that will be added during construction, normal activities, and special activities. Include indoor and outdoor, day and night variations.
   People do make more noise on vacation, however, I meet all guests and stress the importanance of keeping noise down, we have no complaints.
- 4. Heat and glare that exist and that might be introduced from all possible sources such as autos in parking areas, outdoor lights, water or glass surfaces, buildings or outdoor activities.

We would have more cars to produce heat, but we have 3 building lots and only have one house, outdoor lights are all dark sky compliant.

Water and glass surfaces, N?A

We have one building and 2000 feet of deck under roof, so most people are under the roof,

5. Particulate emissions to the air including smoke, dust, chemicals, gasses, or fumes, etc., both existing and what may be added by the proposed uses.

We don't have any dust, we have a 3/4 gravel sand road mix for parking, and the lot on the East side is blocked off to cars and recreational vehicles

6. Water demand, discharge, supply source, and disposal method for potable uses, domestic uses, and fire protection. Identify existing surface water drainage, wetlands, flood prone areas and potential changes. Identify existing ground water and surface water quality and potential changes due to this proposal.

Water Demand, we have combined 3 lots into 1. We use less water then 3 homes no wetlands, no flooding

7.	Fire, explosion, and other hazards existing and proposed. Identify how activities on neighboring property may affect the proposed use.
	We have campfire ring in the back yard surrounded by concrete
8.	Removal of existing vegetation or effects thereon including disturbance of wetlands, general stability of soils, slopes, and embankments and the potential for sedimentation of disturbed soils.
9.	Include practices that will be used to stabilize soils and restore or replace vegetation.
10	Soil characteristics and potential problems in regard to slope stability, embankments, building foundation, utility and road construction. Include suitability for supporting proposed landscaping.  N/A
11	. Site grading or improvements including cuts and fills, drainage courses and impoundments, sound and sight buffers, landscaping, fencing, utilities, and open areas.
12	. Visibility from public roads, adjoining property, and buildings. Include what will be done to reduce visibility of all parts of the proposal but especially cuts and fills and buildings. Include the impacts of shadows from new features on neighboring property.
	I have planted 200 trees, many are large trees and a few smaller, to block from the street and other neighbors
13	Reasons for selecting the particular location including topographic, geographic and similar features, historic, adjoining land ownership or use, access to public lands, recreation, utilities, streets, etc., in order to illustrate compatibility with and opportunities presented by existing land uses or character.
	We have public land on the West and North sides, We are close to the lake and close to Tamarack and snowmobiling

14. Approximation of increased revenue from change in property tax assessment, new jobs available to local residents, and increased local expenditures.
Many guests do usually go out to eat at a local resturant atleast once during there stay.
They purchase local goods and bring good revenue to the community.
15. Approximation of costs for additional public services, facilities, and other economic impacts.
Public service we have is trash, sewer, water, Internet, propane
16. State how the proposed development will impact existing developments providing the same or similar products or services.
N/A
17. State what natural resources or materials are available at or near the site that will be used in a process to produce a product and the impacts resulting from the depletion of the resource. Describe the process in detail and describe the impacts of each part.
NIA
18. What will be the impacts of a project abandoned at partial completion?
N/A.
19. Number of residential dwelling units, other buildings and building sites, and square footage or gross non-residential floor space to be available.
1 residential dwelling_6000 sq feet_2000 sq feet deck
20. Stages of development in geographic terms and proposed construction time schedule.
n/A
21. Anticipated range of sale, lease or rental prices for dwelling units, building or other site, or non-residential floor space in order to insure compatibility with adjacent land use and development.
N/A

#### **Property Tax Exemption**

New and expanding business <u>may</u> qualify for a property tax exemption for up to 5 years by meeting the qualifications in accordance with Idaho Code§ 63-602NN

Application must be filed with the Valley County Assessor's office before construction begins.

### Protocols for qualifying property exemption in Valley County, Idaho:

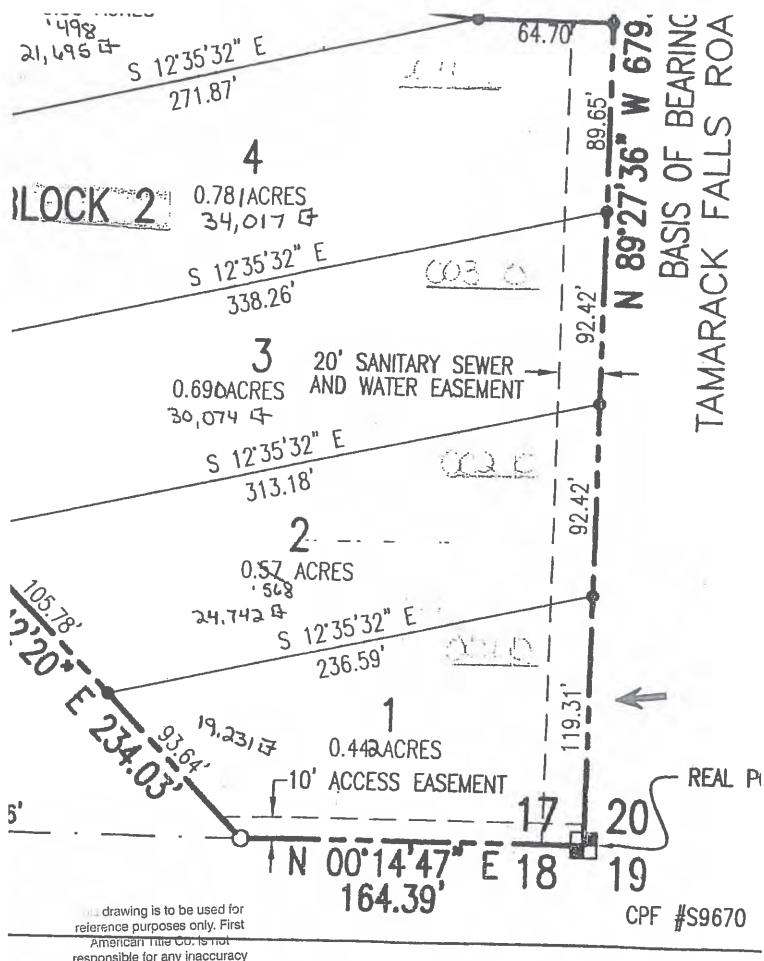

- Application must be received prior to the start of construction (ex. Building Permits, excavation)
- Term of exemption, not to exceed 5 years, will be up to the discretion of the Valley County Board of Commissioners
- · Retail sales business do not qualify
- Multi use may qualify excluding retail sale area
- Housing
  - Multi-family housing must have 5 units or more per structure.
  - Multi-Family housing units may qualify if more than one structure is built totaling
     5 or more units
  - For local housing only (workforce)
  - Short term rentals not allowed
  - Units cannot be individually sold (e.g., no condominiums)
- Remodel and/or additions to existing businesses
  - Only the area of remodel/addition may qualify for exemption
  - · Retail sales additions/remodel will not qualify

For further information regarding the 63-602NN application process and instructions, please contact the Valley County Assessor's office at 208-382-7126.
