Douglas introduced Ryan Grinde as the new member of the Waterways Committee. A short discussion followed about the responsibilities of the Waterways Committee. Aaron Cook who attended, showed an interest in applying to the commissioners for the open position on the Waterways Committee, after hearing our discussion.

Dave Bingaman. Housing options are still being looked into for a appropriate solution. A committee was established for the overview of the Waterways Management Resources plan being developed by Logan Simpson Group, which will meet regularly, and a website will be setup to identify progress here. Request that one of our members join this committee.

The road to the ramp is still partially covered with snow, and will be plowed to provide access to the ramp for the final updates.
