STAFF REPORT: C.U.P. 22-20 CAT Rental Store
HEARING DATE: June 23, 2022
TO: Planning and Zoning Commission
STAFF: Cynda Herrick, AICP, CFM
Planning and Zoning Director
APPLICANT: David McKinnon
Western States Equipment Company
3858 N Garden Center Way STE 300
Boise, ID 83703
PROPERTY OWNER: Clover Valley Properties LLC
PO Box 1177
Donnelly ID 83615
LOCATION: 10 Davis Creek Lane
RP16N03E269809
SESE Sec. 26, T.16N R.3E, Boise Meridian, Valley County, Idaho
SIZE: 9.6 Acres
REQUEST: Equipment Rental Store, Office, and Shop Facility.
EXISTING LAND USE: Agriculture with Fabric Sprung Structure

Western States Equipment Company is requesting approval to establish a commercial use for office space and shop bays for the maintenance of the Cat rental fleet on 9.6 acres currently addressed at 10 Davis Creek LN. Maintenance at this located would be limited to the Company's own equipment, ie the following:

- Cleaning machine cabs, greasing & filling fluids
- Minor repairs
- All used oil will go into a waste oil tank.

The approximately 4,800-sqft building would replace an existing 14,400-sqft fabric sprung structure used for agricultural purposes. Use of a temporary job trailer and maintenance shed is requested until the building can be constructed in 2023.

A security gate would be installed at the entrance of the storage area. No additional security fencing is proposed. Landscaping along Davis Creek Lane and Highway 55 is proposed.

An individual well and septic system would be used. Access would be from Davis Creek Lane, a public road, that is paved at this site. Turn lanes already exist on Highway 55 for this intersection.

FINDINGS:

1. The application was submitted on April 26, 2022.
2. Legal notice was posted in the *Star News* on May 19, 2022, and May 26, 2022. Potentially affected agencies were notified on May 10, 2022. Property owners within 300 feet of the property line were notified by fact sheet sent May 17, 2022. The site was posted on May 26, 2022. The notice was posted online at www.co.valley.id.us on May 10, 2022.

3. Agency comment received:

Central District Health commented that an application for septic system, test holes, ground water monitoring, and more information on number of employees is needed. (May 11, 2022)

Jess Ellis, Donnelly Fire Department Fire Marshal, replied with requirements for roads, storage of fuel/oil, and fire extinguishers. Building plans shall be submitted to the Donnelly Rural Fire Protection District for review prior to construction. (May 23, 2022)

Jeff McFadden, Valley County Road Superintendent, states Davis Creek Road would see increased traffic. This section of the road has recently been rebuilt with a good base and new hot mix asphalt. It should be capable of handling the added traffic. He recommends that the entrance be wide enough to accommodate the longer truck/trailer combos and not affect the asphalt edges of Davis Creek Road. This recommendation should be memorialized in a voluntary road agreement negotiated between the Valley County Board of County Commissioners, Valley County Road Department, and the applicant. (May 26, 2022)

4. Public comment received:

Bob Gestrin has no issues. There will be regular business hours. (June 9, 2022)

5. Physical characteristics of the site: Relatively flat

6. The surrounding land use and zoning includes:

North: Single-Family Residential, Commercial (Gestrin Well's Drilling), and Industrial (Knife River Concrete Batch Plant)

South: Agricultural (Irrigated Crop Land), C.U.P. 19-25 Mountain Top Produce

East: Single-Family Residential Rural Parcel

West: Agricultural (Irrigated Crop Land), Single-Family Residential Rural Parcels, and Industrial (CUP 06-15 Roberts Ranch Gravel Extraction)

7. Valley County Code (Title 9): In Table 9-3-1, this proposal is categorized under:

- 5. Commercial Uses (d) Area business

Review of Title 9, Chapter 5 Conditional Uses should be done.

TABLE 5-A STANDARDS FOR CONDITIONAL USES

Use Description	Building Setbacks (feet)				Minimum Lot Area	Max. % Lot Cover	Minimum Street Frontage	Max. Building Height	Minimum Parking Spaces
	Front	Side	Side Street	Rear					
Commercial Use Area Business	30	10	30	30		40	75	35	1 + 1/250 sqft

9-5-3: STANDARDS:

B. Setbacks:

1. Structures Exceeding Three Feet In Height: The setbacks for all structures exceeding three feet (3') in height are specified herein under the site and development standards for the specific use.
2. Highway 55: All structures shall be set back one hundred feet (100') from the right of way line of Highway 55 unless a more restrictive setback is required within other sections of this title.
3. High Water Line: All residential buildings shall be set back at least thirty feet (30') from high water lines. All other buildings shall be set back at least one hundred feet (100') from high water lines.
4. Front Yards: Front yards shall be determined by the structure establishing the principal use on the property and the location of the access street or road.
5. Measurement: All building setbacks shall be measured horizontally, on a perpendicular to the property line, to the nearest corner or face of the building including eaves, projections, or overhangs

9-5A-1: GRADING:

- A. Permit Required: Grading to prepare a site for a conditional use or grading, vegetation removal, construction or other activity that has any impact on the subject land or on adjoining properties is a conditional use. A conditional use permit is required prior to the start of such an activity.
- E. Site Grading Plan:
 1. The conditional use permit application shall include a site grading plan, or preliminary site grading plan for subdivisions, clearly showing the existing site topography and the proposed final grades with elevations or contour lines and specifications for materials and their placement as necessary to complete the work. The plan shall demonstrate compliance with best management practices for surface water management for permanent management and the methods that will be used during construction to control or prevent the erosion, mass movement, siltation, sedimentation, and blowing of dirt and debris caused by grading, excavation, open cuts, side slopes, and other site preparation and development. The plan shall be subject to review of the county engineer and the soil conservation district. The information received from the county engineer, the soil conservation district, and other agencies regarding the site grading plan shall be considered by the planning and zoning commission and/or the board of county commissioners in preparing the conditions of approval or reasons for denial of the applications.
- F. Land Surfaces Not Used For Roads, Buildings And Parking: All land surfaces not used for roads, buildings and parking shall be covered either by natural vegetation, other natural and undisturbed open space, or landscaping.
- G. Stormwater Management Plan: Prior to issuance of building permits, the administrator must receive a certification from the developer's engineer verifying that the stormwater management plan has been implemented according to approved plans. (Ord. 10-06, 8-23-2010)

9-5A-2: ROADS AND DRIVEWAYS:

- B. Access Roads Or Driveways: Residential developments, civic or community service uses, and commercial uses shall have at least two (2) access roads or driveways to a public street wherever practicable.

9-5A-3: PARKING AND OFF STREET LOADING FACILITIES:

- A. Site Plan: The site plan for a conditional use permit shall include a detailed scale drawing showing the parking area plan including driveways, parking spaces, setbacks, landscaping, buildings, vehicle maneuver areas including firetrucks and refuse collection trucks, snow storage, and drainage.
- B. Accessory Parking And Loading Facilities Required: Accessory parking and loading facilities shall be provided as required herein for every building and structure erected, and every land use established after the effective date hereof; unless the commission or the board determines that the proposed parking is adequate.
- C. Required Spaces: The minimum number of spaces required is specified herein under the site and development standards for the specific use.
- D. (h). Prohibited In Setback Zone: No part of a parking area shall be located within a required setback zone such as a side, front, or rear yard.

- D. **Parking Space, Maneuvering Area And Aisle Dimensions:** All parking spaces and on site vehicular circulation areas shall comply with the following minimum sizes 1 :
1. **Parking Area Dimensions:**
 - a. Minimum size parking spaces shall measure eight feet six inches by eighteen feet (8'6" x 18').
 - b. All parallel parking spaces shall measure a minimum of eight feet six inches by twenty two feet (8'6" x 22').
 - c. Recreational vehicle parking spaces shall measure a minimum of ten feet by twenty four feet (10' x 24').
 2. **End Parking Space Maneuvering:** A three foot (3') wide maneuvering area shall be provided for end parking spaces in single access parking areas as shown below.
 3. **Vehicle Overhang:**
 - a. **Recreational Vehicles And Parking Spaces:** Recreational vehicles and parking spaces are not allowed to overhang sidewalks, curbs or landscape areas.
 - b. **Standard Size Parking Spaces:**
 - (1) **Landscaped Areas:** Standard size parking spaces are allowed to overhang landscaped areas and curbs but this overhang shall not encroach into any required setback and this area shall not be considered in meeting any required percentage of lot to be landscaped.
 - (2) **Sidewalks:** Standard size parking spaces are allowed to overhang sidewalks only where the sidewalk is a minimum of six feet (6') in width.
 - c. **Access To And From Streets:** Parking areas must have safe, convenient, and unobstructed access to and from streets by means of a driveway not less than ten feet (10') wide nor more than forty feet (40') wide that extends onto the private property at least twenty feet (20') beyond the property line. Driveways to loading facilities will enable vehicles to leave and enter streets in a forward direction.
 - d. **Driveways:** All driveways shall be designed and constructed in accordance with the county approach policies.
 - e. **Surface:** Parking areas and driveways shall be surfaced with asphalt, concrete, compacted gravel, and crushed rock, or other dust free, durable material.
 - f. **Surface Water Drainage:** Drainage of surface water shall be provided that will be adequate to drain the surface of the parking area while preventing flows of water onto adjacent properties. Surface waters shall be managed in accordance with best management practices to protect or improve water quality.
 - g. **Screening:** Parking areas containing more than ten (10) spaces shall be effectively screened on all sides adjoining residential uses by a wall, fence, or plantings not less than four feet (4') in height.
 - h. **Prohibited In Setback Zone:** No part of a parking area shall be located within a required setback zone such as a side, front, or rear yard.
 - i. **Off Street Loading Facilities:** Off street loading facilities shall be provided separately from parking spaces for commercial, industrial, and institutional uses. The facilities shall be adequate to provide loading and unloading without obstruction to the street or parking areas.
 - j. **Maintenance:** Parking areas and off street loading facilities shall be maintained in good order, clear of debris, and shall not be used for any other use that interferes with or limits the intended use.
 - k. **Lighting:** Only indirect lighting may be used to illuminate a parking area. See other lighting regulations in section 9-5B-2 of this chapter.

9-5A-4: LANDSCAPING:

B. Landscaping; Standards Of Design:

1. **Minimum Requirements:** Each site to be developed under a conditional use permit shall be required to provide landscape areas equal to or exceeding the following minimum amounts:
 - b. **Service/Commercial Use:** Each site for proposed service/commercial use shall have a minimum of fifteen percent (15%) of the net site/lot area in landscaping.
 - d. **Additional Landscaping:** In addition to the minimum on site landscaping, there shall be landscaping in the entire area of the right of way, between street property line and back of street curb, road, back slope, or fill slope, except for approved driveways, walkways, bike paths, and snow storage areas.

5. Commercial, Office Or Industrial Use Adjacent To Residence: Where a commercial, office or industrial user of over fifty thousand (50,000) square feet building area is located adjacent to a residence, the landscape buffer described in subsection B3 of this section shall be increased to fifteen feet (15') (adjacent to that user), with two (2) rows of trees along the interior side of the property line. Each row is to contain minimum fifteen (15) gallon trees spaced fifteen feet (15') on center, staggered for maximum effect in buffering the two (2) uses.
6. Criteria For Trees Along Street Frontage: Trees shall be required along all street frontages according to the following criteria:
 - a. A minimum of one tree shall be planted for every twenty five feet (25') of linear street frontage. The trees may be grouped or planted in groves;
 - b. Fifty percent (50%) shall be twenty four inch (24") box size or larger with the balance being minimum fifteen (15) gallon size;
 - c. The trees selected shall be compatible with the overall site and landscape plan as well as adjacent sites.
7. Standard Tree Planting Detail: All trees shall be planted and staked in accordance with the "Standard Tree Planting Detail" diagram in section 9-5-4 of this chapter. Plant sizes to be in accordance with Nurseryman Association standards.
8. On Site Water Retention Areas: All on site water retention areas, other than paved surfaces, shall be entirely landscaped and shall comply with the following criteria:
 - a. The retention areas shall not occupy more than sixty seven percent (67%) of the on site street frontage landscape area;
 - b. All retention areas shall maintain slopes no steeper than three to one (3:1).
9. Mounding And Berming: All mounding and berming shall have slopes no steeper than three to one (3:1).
10. Ground Cover: A minimum of fifty percent (50%) of the landscaped areas is to be planted with vegetative ground cover. Minimum size and spacing to be one gallon size plants at a maximum three feet (3') on center.

9-5A-5: FENCING:

- A. Substituted For Planting Screens: Fencing may be substituted for planting screens subject to the approval of the staff and the commission.
- B. Separation Or Screening: Fencing shall be installed to provide separation or screening as specified in the site or development standards for the specific use. A sight obscuring fence required by the commission for any conditional use shall be stained or painted a single solid color, shall not be used for advertising, and shall be maintained in good repair.
- D. Random Entry: Fencing shall be installed to secure against random entry into hazardous areas or operations.
- E. Construction And Materials: Fence construction and materials shall be in accordance with commonly accepted good practices to produce a neat appearing durable fence. The location, height, and materials used for constructing a fence shall be approved by the commission and specified in the conditional use permit. Fences required for any conditional use shall be maintained in good repair.
- F. Conditional Use Adjoins Agricultural Uses: Where a conditional use adjoins an agricultural use where animal grazing is known to occur for more than thirty (30) consecutive days per year, the permittee shall cause a fence to be constructed so as to prevent the animals from entering the use area. The permittee shall provide for the maintenance of said fence through covenants, association documents, agreement(s) with the adjoining owner(s), or other form acceptable to the commission prior to approval of the permit so that there is reasonable assurance that the fence will be maintained in functional condition so long as the conflicting uses continue.
- G. Obstruction Of Vision: Sight obscuring fences, hedges, walls, latticework, or screens shall not be constructed in such a manner that vision necessary for safe operation of motor vehicles or bicycles on or entering public roadways is obstructed. (Ord. 10-06, 8-23-2010)

9-5B-1: NOISE:

- A. Commercial Or Industrial Activity: The noise emanating from any commercial or industrial activity shall be muffled so as not to become objectionable due to intermittent beat, frequency or shrillness, and shall not exceed forty (40) decibels between the hours of seven o'clock (7:00) P.M. and seven o'clock (7:00) A.M., and sixty (60) decibels at other hours at the property line if adjacent uses are not the same.

9-5B-6: OPEN STORAGE:

All storage shall be located within an area not closer than twenty feet (20') from the street right of way line and shall be enclosed with a heavy wire or board fence not less than six feet (6') high, or by plantings the same height. Lumber, coal, or other combustible material will be fully accessible to firetrucks at all times. Open storage of toxic or hazardous materials shall not be allowed.

9-5F-1: COMMERCIAL USES; SITE OR DEVELOPMENT STANDARDS**A. Minimum Lot Area:**

1. The minimum lot area shall be unlimited herein except for the provisions of subsection 9-5-3A2 of this chapter, and except the minimum area for a ski area shall be forty (40) acres.
2. Frontage on a public or private road shall not be less than seventy five feet (75') for each lot or parcel.

B. Minimum Setbacks:

1. The minimum setbacks for neighborhood businesses shall be thirty feet (30') from front, rear, and side street property lines and ten feet (10') from all side property lines.
2. The minimum setbacks for service and recreation businesses shall be fifty feet (50') from rear, front, and side street property lines and thirty feet (30') from side property lines.
3. The minimum setbacks for area businesses shall be the same as those for neighborhood businesses. Salvage yards, auto wrecking yards, or commercial agricultural businesses shall be located not less than one thousand feet (1,000') from any residential development, civic or community service use, or other noncompatible commercial use, unless the impacts are adequately mitigated by implementation of standards as approved by the commission. The setbacks will be determined in relation to impact mitigation.

C. Maximum Building Height And Floor Area:

1. Building heights shall not exceed thirty-five feet (35') above the lower of the existing or finished grade.
2. The building size or floor area shall not exceed the limitations of subsections 9-5-3A and C of this chapter and title 6, chapter 1 of this code.
3. No building or combination of buildings may cover more than forty percent (40%) of the lot or parcel, except recreation business buildings may not cover more than one percent (1%) of the lot and agricultural business buildings may not cover more than twenty percent (20%) of the lot or parcel.

D. Site Improvements:

1. Where commercial uses are proposed on a lot or parcel having frontage on Highway 55 and a side street, the access shall be limited to the side street.
2. Parking spaces for neighborhood and area businesses shall be provided at the rate of one, plus one per each two hundred fifty (250) square feet of floor area.

SUMMARY:

Compatibility Rating: Staff's compatibility rating is a +13.

The Planning and Zoning Commission should do their own compatibility rating prior to the meeting (form with directions attached). Should consider determining first 3 matrix questions as more of an agricultural use since it is a Commercial Agricultural Business.

STAFF COMMENTS AND QUESTIONS:

1. This site is within the Donnelly Fire District and the Gold Fork Irrigation District; however, no water rights will be attached to the property.

2. This site is within a herd district.
3. Valley County Code states that commercial uses shall have at least two access roads or driveways to a public street wherever practicable. Staff does not believe this requirement is practical for this use at this location.
4. Wash pad area is proposed. What will happen to the gray water?
5. What are the proposed hours and days of operation?
6. Where is the proposed location and type of sign(s) for the business?
7. I saw the electrical photometric site plan. What are the types of outdoor lighting fixtures? How high will they be? How many do you have...do you need a lot of lighting?
8. Please describe the fence.

Conditions of Approval

1. The application, the staff report, and the provisions of the Land Use and Development Ordinance are all made a part of this permit as if written in full herein.
2. Any change in the nature or scope of land use activities shall require an additional Conditional Use Permit.
3. The use shall be established within one year, or a permit extension will be required.
4. The issuance of this permit and these conditions will not relieve the applicant from complying with applicable County, State, or Federal laws or regulations or be construed as permission to operate in violation of any statute or regulations. Violation of these laws, regulations or rules may be grounds for revocation of the Conditional Use Permit or grounds for suspension of the Conditional Use Permit.
5. All lights shall be fully shielded so that there is not upward or horizontal projection of lights.
6. All setback requirements must be met, including a 100-ft setback from Highway 55.
7. The minimum building setbacks shall be thirty feet (30') from front and rear property lines and ten feet (10') from side property lines

8. Must submit approval letter from Central District Health.
9. Must comply with requirements of the Donnelly Fire District. A letter of approval is required.
10. Must obtain an Approach in County Right-of-Way Permit from the Valley County Road Department.
11. Hours of operation are 7:00 a.m. to 7:00 p.m., Monday through Saturday.
12. All mounding and berms shall have slopes no steeper than three to one (3:1).
13. All noxious weeds on the property must be controlled.
14. Prior to construction of any on-site improvements, the applicant shall meet with the Valley County Road Director and/or Board of County Commissioners to discuss off-site road improvements. If an agreement cannot be reached the application shall be set for another public hearing with the Valley County Planning and Zoning Commission to determine if the application can be approved without improvements and still meet their mandates concerning public health, safety, and welfare matters. The discussion will be concerning current road conditions and potential mitigation for impacts caused by the development.
15. Shall obtain a sign permit prior to installation of a sign.
16. Shall obtain building permits for all temporary and permanent structures.

END OF STAFF REPORT

9-11-1: APPENDIX A, COMPATIBILITY EVALUATION:

A. General: One of the primary functions of traditional zoning is to classify land uses so that those which are not fully compatible or congruous can be geographically separated from each other. The county has opted to substitute traditional zoning with a multiple use concept in which there is no separation of land uses. Proposed incompatible uses may adversely affect existing uses, people, or lands in numerous ways: noise, odors, creation of hazards, view, water contamination, loss of needed or desired resources, property values, or infringe on a desired lifestyle. To ensure that the county can continue to grow and develop without causing such land use problems and conflicts, a mechanism designed to identify and discourage land use proposals which will be incompatible at particular locations has been devised. The compatibility evaluation of all conditional uses also provides for evaluations in a manner which is both systematic and consistent.

B. Purpose; Use:

1. The compatibility rating is to be used as a tool to assist in the determination of compatibility. The compatibility rating is not the sole deciding factor in the approval or denial of any application.
2. Staff prepares a preliminary compatibility rating for conditional use permits, except for conditional use permits for PUDs. The commission reviews the compatibility rating and may change any value.

C. General Evaluation: Completing the compatibility questions and evaluation (form):

1. All evaluations shall be made as objectively as possible by assignment of points for each of a series of questions. Points shall be assigned as follows:

Plus 2 - assigned for full compatibility (adjacency encouraged).

Plus 1 - assigned for partial compatibility (adjacency not necessarily encouraged).

0 - assigned if not applicable or neutral.

Minus 1 - assigned for minimal compatibility (adjacency not discouraged).

Minus 2 - assigned for no compatibility (adjacency not acceptable).

2. Each response value shall be multiplied by some number, which indicates how important that particular response is relative to all the others. Multipliers shall be any of the following:

x4 - indicates major relative importance.

x3 - indicates above average relative importance.

x2 - indicates below average relative importance.

x1 - indicates minor relative importance.

D. Matrix - Questions 1 Through 3: The following matrix shall be utilized, wherever practical, to determine response values for questions one through three (3). Uses classified and listed in the left hand column and across the top of the matrix represent possible proposed, adjacent, or vicinity land uses. Each box indicates the extent of compatibility between any two (2) intersecting uses. These numbers should not be changed from proposal to proposal, except where distinctive uses arise which may present unique compatibility considerations. The commission shall determine whether or not there is a unique consideration.

E. Terms:

DOMINANT ADJACENT LAND USE: Any use which is within three hundred feet (300') of the use boundary being proposed; and

1. Comprises at least one-half ($1/2$) of the adjacent uses and one-fourth ($1/4$) of the total adjacent area; or
2. Where two (2) or more uses compete equally in number and are more frequent than all the other uses, the one with the greatest amount of acreage is the dominant land use; or
3. In all other situations, no dominant land use exists. When this occurs, the response value shall be zero.

LOCAL VICINITY: Land uses within a one to three (3) mile radius. The various uses therein should be identified and averaged to determine the overall use of the land.

F. Questions 4 Through 9:

1. In determining the response values for questions 4 through 9, the evaluators shall consider the information contained in the application, the goals and objectives of the comprehensive plan, the provisions of this title and related ordinances, information gained from an actual inspection of the site, and information gathered by the staff.
2. The evaluator or commission shall also consider proposed mitigation of the determined impacts. Adequacy of the mitigation will be a factor.

- ☐ 1. We have No Objections to this Proposal.
- ☐ 2. We recommend Denial of this Proposal.
- ☒ 3. Specific knowledge as to the exact type of use must be provided before we can comment on this Proposal.
- ☒ 4. We will require more data concerning soil conditions on this Proposal before we can comment.
- ☒ 5. Before we can comment concerning individual sewage disposal, we will require more data concerning the depth of:
☒ high seasonal ground water ☐ waste flow characteristics
☐ bedrock from original grade ☐ other _____
- ☐ 6. This office may require a study to assess the impact of nutrients and pathogens to receiving ground waters and surface waters.
- ☐ 7. This project shall be reviewed by the Idaho Department of Water Resources concerning well construction and water availability.
- ☐ 8. After written approvals from appropriate entities are submitted, we can approve this proposal for:
☐ central sewage ☐ community sewage system ☐ community water well
☐ interim sewage ☐ central water
☐ individual sewage ☐ individual water
- ☐ 9. The following plan(s) must be submitted to and approved by the Idaho Department of Environmental Quality:
☐ central sewage ☐ community sewage system ☐ community water
☐ sewage dry lines ☐ central water
- ☐ 10. Run-off is not to create a mosquito breeding problem
- ☐ 11. This Department would recommend deferral until high seasonal ground water can be determined if other considerations indicate approval.
- ☐ 12. If restroom facilities are to be installed, then a sewage system MUST be installed to meet Idaho State Sewage Regulations.
- ☐ 13. We will require plans be submitted for a plan review for any:
☐ food establishment ☐ swimming pools or spas ☐ child care center
☐ beverage establishment ☐ grocery store

- ☒ 14. Application for septic system, test holes, ground water monitoring
and more information on number of employees is needed before
comments can be made

RE: C.U.P. 22-20 Cat Rental Store

After review, the Donnelly Rural Fire Protection District will require the following.

- All fire apparatus access roads shall be built to Valley County Road Department standards or **Section 503.2 IFC 2018**
- **Section 503.2.1 IFC 2018** Fire apparatus access roads shall have an unobstructed width of not less than 20 feet exclusive of shoulders, except for approved security gates in accordance with Section 503.6, and an unobstructed vertical clearance of not less than 13 feet 6 inches
- Any on site storage of fuel/oil shall require compliance with Section 57 of the 2018 International Fire Code
- Building plans shall be submitted to the Donnelly Fire Department for review prior to construction
- Portable fire extinguishers shall be installed in accordance with **Section 906.1 IFC 2018**

Please call 208-325-8619 with any questions.

C.U.P. 22-20

The Valley County Road Dept. was asked to review this CUP and provide comments related to the anticipated impact to the local roads that will be utilized for accessing the proposed store. CUP 22-20 is an application submitted by Western States Equipment Company seeking approval of a 9.6 acre commercial rental store.

County maintained roads that will see increased traffic by the addition of the proposed development if the plat is approved include Davis Creek Road. It is expected that transportation services including all season road maintenance, road resurfacing, road rebuilds provided by Valley County Road Dept. will be impacted by the increased traffic.

- Recommendation (1): The section of Davis Creek road has recently been rebuilt with a good base and new hot mix asphalt. It should be capable of handling the added traffic for the proposed rental store. I would like to make sure, if constructed, that the entrance is wide enough to accommodate the longer truck/trailer combos entering and exiting will not affect the asphalt edges of Davis Creek Road.

Any or all of the above recommendations that are agreeable to the developer should be memorialized in a future voluntary road agreement negotiated between the Valley County Board of County Commissioners, Valley County Road Dept. and developer identifying the value of road improvement costs contributed.

Valley County Road Superintendent

A handwritten signature in black ink, appearing to read "Jeff McFadden".

Jeff McFadden

Bob Gestrin called on 6/9/2022.

Glamping:

He is not in favor due to concerns of lack of supervision and management for five years.

Concerned with parties.

A campground with nice RV's would be a better option than tents.

Should have an annual review and supervision.

CAT Store Comments: He has no issues. They will have regular business hours.
