STAFF REPORT:	C.U.P. 22-22 Round Valley Haven Subdivision - Preliminary Plat
HEARING DATE:	July 14, 2022
TO:	Planning and Zoning Commission
STAFF:	Cynda Herrick, AICP, CFM Planning and Zoning Director
APPLICANT/ PROPERTY OWNERS:	Philip Portsche and Ted Larson 12126 N 18th AVE Boise, ID 83714
SURVEYOR:	John Russell Surveying P.O. Box 945 McCall, ID 83638
LOCATION:	10373 Highway 55 RP12N04E190004 & RP12N04E190480 NENE Section 19, T.12N, R.4E, Boise Meridian, Valley County, Idaho
SIZE:	34 acres
REQUEST:	Single-Family Residential Subdivision
EXISTING LAND USE:	Single-Family Residential Parcel and Productive Timber Land

Philip Portsche is requesting a conditional use permit for a 2-lot single-family subdivision on 34 acres. This request is to correct an illegal property split that occurred in 2016.

Both parcels will own frontage along Highway 55. Access would be from a shared driveway from Highway 55 located on both sides of the shared lot line. A new approach will be constructed from the highway to meet Idaho Transportation Department requirements.

Proposed lot sizes are 16-acres and 18-acres. Individual wells and individual septic systems are proposed. Underground electrical utilities will be installed.

A wildland urban interface fire protection plan has been submitted.

FINDINGS:

1. The application was originally submitted on April 28, 2022. Additional materials were submitted at later dates.
2. Legal notice was posted in the *Star News* on June 23, 2022, and June 30, 2022. Potentially affected agencies were notified on June 14, 2022. Property owners within 300 feet of the property line were notified by fact sheet sent June 17, 2022. The site was posted on July 1, 2022. The notice and application were posted online at www.co.valley.id.us on June 14, 2022.

3. Agency comment received:

Central District Health requires more information including an application, test holes, and engineering report. (June 17, 2022)

4. Neighbor comment received: *none*

5. Physical characteristics of the site: Mountainous topography. Timbered with ponds and wetland areas.

6. The surrounding land use and zoning includes:

North: Agricultural (Timber) and approved C.U.P. 21-34 Saddle Rock Subdivision

South: Single-Family Residential - Daagco No. 1 Subdivision

East: Agricultural (Grazing and Timber)

West: State of Idaho (Timber)

7. Valley County Code (Title 9): In Table 9-3-1, this proposal is categorized under:

- 2. Residential Uses (c) Subdivision for single-family subdivision.

Review of Title 9 - Chapter 5 Conditional Uses and Title 10 should be done.

9-5-3: STANDARDS:

B. Setbacks:

1. Structures Exceeding Three Feet In Height: The setbacks for all structures exceeding three feet (3') in height are specified herein under the site and development standards for the specific use.
2. Highway 55: All structures shall be set back one hundred feet (100') from the right of way line of Highway 55 unless a more restrictive setback is required within other sections of this title.
3. High Water Line: All residential buildings shall be set back at least thirty feet (30') from high water lines. All other buildings shall be set back at least one hundred feet (100') from high water lines.
6. Measurement: All building setbacks shall be measured horizontally, on a perpendicular to the property line, to the nearest corner or face of the building including eaves, projections, or overhangs.

9-5A-1: GRADING:

- A. Permit Required: Grading to prepare a site for a conditional use or grading, vegetation removal, construction or other activity that has any impact on the subject land or on adjoining properties is a conditional use. A conditional use permit is required prior to the start of such an activity.

- C. Flood Prone Areas: Grading within flood prone areas is regulated by provisions of section 9-6-2 of this title and title 11 of this code. A permit, if required, shall be a part of the conditional use permit.

- D. Wetlands: Grading or disturbance of wetlands is subject to approval of the U.S. corps of engineers under the federal clean water act. The federal permit, if required, shall be part of the conditional use permit.

E. Site Grading Plan:

1. The conditional use permit application shall include a site grading plan, or preliminary site grading plan for subdivisions, clearly showing the existing site topography and the proposed final grades with elevations or contour lines and specifications for materials and their placement as necessary to complete the work. The plan shall demonstrate compliance with best management practices for surface water management for permanent management and the methods that will be used during construction to control or prevent the erosion, mass movement, siltation, sedimentation, and blowing of dirt and debris caused by grading, excavation, open cuts, side slopes, and other site preparation and development. The plan shall be subject to review of the county engineer and the soil conservation district. The information received from the county engineer, the soil conservation district, and other agencies regarding the site grading plan shall be considered by the planning and

- zoning commission and/or the board of county commissioners in preparing the conditions of approval or reasons for denial of the applications.
2. For subdivisions, preliminary site grading plans and stormwater management plans must be presented for review and approval by the commission as part of the conditional use permit application. However, prior to construction of the infrastructure, excavation, or recordation of the final plat, the final plans must be approved by the county engineer.
- F. Land Surfaces Not Used For Roads, Buildings And Parking: All land surfaces not used for roads, buildings and parking shall be covered either by natural vegetation, other natural and undisturbed open space, or landscaping.
- G. Stormwater Management Plan: Prior to issuance of building permits, the administrator must receive a certification from the developer's engineer verifying that the stormwater management plan has been implemented according to approved plans. (Ord 10-06, 8-23-2010)

9-5A-2: ROADS AND DRIVEWAYS:

- A. Roads For Public Dedication And Maintenance: Roads for public dedication and maintenance shall be designed and constructed in accordance with title 10 of this code and in accordance with "Construction Specifications And Standards For Roads And Streets In Valley County, Idaho".
- B. Access Roads Or Driveways: Residential developments, civic or community service uses, and commercial uses shall have at least two (2) access roads or driveways to a public street wherever practicable.
- C. Private Roads: Private roads shall meet the provisions of the Valley County subdivision ordinance and any policies adopted by the board of county commissioners.
- E. Access To Highway 55: Access to Highway 55 shall be limited at all locations and may be prohibited where other access is available. An access permit from the Idaho transportation department may be required.

9-5A-4: LANDSCAPING:

- B. Landscaping; Standards Of Design:
6. Criteria For Trees Along Street Frontage: Trees shall be required along all street frontages according to the following criteria:
 - a. A minimum of one tree shall be planted for every twenty five feet (25') of linear street frontage. The trees may be grouped or planted in groves;
 - b. Fifty percent (50%) shall be twenty four inch (24") box size or larger with the balance being minimum fifteen (15) gallon size;
 - c. The trees selected shall be compatible with the overall site and landscape plan as well as adjacent sites.
 7. Standard Tree Planting Detail: All trees shall be planted and staked in accordance with the "Standard Tree Planting Detail" diagram in section 9-5-4 of this chapter. Plant sizes to be in accordance with Nurseryman Association standards.
 9. Mounding And Berming: All mounding and berming shall have slopes no steeper than three to one (3:1).
 10. Ground Cover: A minimum of fifty percent (50%) of the landscaped areas is to be planted with vegetative ground cover. Minimum size and spacing to be one gallon size plants at a maximum three feet (3') on center.

9-5A-5: FENCING:

- C. Livestock In Residential Development: If livestock are allowed in a residential development, then fencing shall be installed to keep livestock out of public street rights of way. Cattle guards shall not be installed in public roads within residential developments.
- F. Conditional Use Adjoins Agricultural Uses: Where a conditional use adjoins an agricultural use where animal grazing is known to occur for more than thirty (30) consecutive days per year, the permittee shall cause a fence to be constructed so as to prevent the animals from entering the use area. The permittee shall provide for the maintenance of said fence through covenants, association documents, agreement(s) with the adjoining owner(s), or other form acceptable to the commission prior to

approval of the permit so that there is reasonable assurance that the fence will be maintained in functional condition so long as the conflicting uses continue.

- G. Obstruction Of Vision: Sight obscuring fences, hedges, walls, latticework, or screens shall not be constructed in such a manner that vision necessary for safe operation of motor vehicles or bicycles on or entering public roadways is obstructed.

9-5A-6: UTILITIES:

- A. Direct Access Required: All lots or parcels, for or within conditional uses, shall be provided, or shall have direct access to, utility services including telephone, electrical power, water supply, and sewage disposal.
- C. Probability Of Water Supply: Probability of water supply, as referred to in subsection A of this section, can be shown by well logs in the general area or by a determination of a professional engineer, hydrologist, or soil scientist.
- D. Individual Septic Systems: If individual septic systems are proposed to show compliance with sewage disposal requirements in subsection A of this section, sanitary restrictions must be lifted on every lot prior to recordation unless it is designated as a lot where a building permit will never be issued for a residential unit, such as pasture lot, common area, open space, or a no build lot.
- E. Easements Or Rights Of Way: Easements or rights of way shall be set aside or dedicated for the construction and maintenance of utilities in accordance with the provisions of the subdivision ordinance.
- F. Utility Plan: A utility plan showing the schedule of construction or installation of proposed utilities shall be a part of the conditional use permit. (Ord. 10-06, 8-23-2010)

9-5B-4: EMISSIONS:

- C. Wood Burning Devices: Wood burning devices shall be limited to one per site. Wood burning devices shall be certified for low emissions in accordance with EPA standards.

9-5C-2: MINIMUM LOT AREA:

- B. New Subdivisions:
 - 1. Single-Family Residences: New subdivisions for single-family residences shall provide the following minimum lot sizes:
 - a. One acre where individual sewage disposal systems and individual wells are proposed.
- C. Frontage On Public Or Private Road: Frontage on a public or private road shall not be less than thirty feet (30') for each lot or parcel. The lot width at the front building setback line shall not be less than ninety feet (90').

9-5C-3: MINIMUM SETBACKS:

The minimum building setbacks shall be thirty feet (30') from front, rear, and side street property lines and fifteen feet (15') from all side property lines. Setbacks for mobile homes in subdivisions or parks shall be in accordance with title 12, chapter 1 of this code. A PUD, condominium or other cluster development may include zero lot line development and other reduced setbacks in accordance with the approved development plan or plat.

9-5C-4: MAXIMUM BUILDING HEIGHT AND FLOOR AREA:

- A. Maximum Height: Building heights, except as may be modified by a PUD, shall not exceed thirty five feet (35') above the lower of existing or finished grade.
- B. Building Size Or Floor Area: The building size or floor area, except as may be modified by a PUD, shall not exceed the limitations of subsections 9-5-3A and C of this chapter.
- C. Lot Coverage: No structure or combination of structures, except as may be modified by a PUD, may cover more than forty percent (40%) of the lot or parcel.

9-5C-5: SITE IMPROVEMENT:

- A. Off Street Parking Spaces: Two (2) off street parking spaces shall be provided for each dwelling unit. These spaces may be included in driveways, carports, or garages.

- B. Utility Lines: All utility lines, including service lines, that are to be located within the limits of the improved roadway in new residential developments must be installed prior to placing the leveling coarse material.

9-5C-6: DENSITY:

- A. The density of any residential development or use requiring a conditional use permit shall not exceed two and one-half (2.5) dwelling units per acre, except for planned unit developments or long-term rentals. Long-term rental density can be determined by the Planning and Zoning Commission in regards to compatibility with surrounding land uses and will require a deed restriction.
- B. Density shall be computed by dividing the total number of dwelling units proposed by the total acreage of land within the boundaries of the development. The area of existing road rights of way on the perimeter of the development and public lands may not be included in the density computation.

10-4-6: EASEMENTS:

- A. Utility Easements: There shall be provided easements for the utilities upon and across the front of lots of a width of a minimum of twelve feet (12') (except for entrance service) or as and where considered necessary by the commission.
- B. Stormwater Easement Or Drainage Right Of Way: Where a subdivision is crossed or bounded by a watercourse, drainageway, channel, irrigation ditch, or stream there shall be provided a stormwater easement or drainage right of way conforming substantially with the lines of such watercourse, and such further width or construction, or both, as will be adequate for the purpose.
- C. Drainage: Provisions for adequate drainage shall be made by the subdivider as prescribed by the county engineer in accordance with the manual containing the drainage standards and specifications as adopted by Valley County.
- D. Existing Easements: All existing easements must be shown on the subdivision plat.

10-5-1: STREET AND UTILITY IMPROVEMENTS:

- A. Installation Required: Public street, utility, conduit for fiber optics, and other off site improvements, as hereinafter listed, shall be installed in each new subdivision at the subdivider's expense or at the expense of the party agreeing to install the same, in accordance with the minimum standards set forth below prior to the acceptance of any final plat for recordation, except as provided in subsections C and D of this section. A right of way permit will be required (see section 5-7-2 of this code).
- B. Acceptance By County: The county shall not accept the dedication of any public rights of way and any easements shown on the plat, together with appurtenant facilities lying therein which the county would have a duty to maintain after dedication, which are not improved, or construction thereof guaranteed in accordance with the provisions of this title or with the policies, standards, designs and specifications set forth in the road and street specifications adopted by Valley County. The Valley County Board of Commissioners have the sole discretion to set the level of service for any public road; the level of service can be changed. All plats shall contain in their notes this statement: "The Valley County Board of Commissioners have the sole discretion to set the level of service for any public road; the level of service can be changed."

Dedication of public rights-of-way does not guarantee that the public road will be maintained by Valley County. Public rights of way are allowed with roads that are maintained by homeowners. Public rights of way shall be provided through properties to adjacent lands for the purpose of circulation, when reasonable.

- C. Private Road Declaration: In the event that private roads, streets and ways are shown on a subdivision plat, the width of the right of way must meet specifications set forth in road and street specifications adopted by the board of county commissioners. A private road declaration shall be recorded and state that the county will have no responsibility for the installation or maintenance of the private roads, shall describe who is responsible for maintenance of the private roads, and describe the construction schedule for the private roads. Construction of private roads shall be the responsibility of the subdivider and shall be constructed to the minimum standards as set forth in the road and street specifications for private roads adopted by the county.

- D. **Declaration Of Installation Of Utilities:** A declaration of installation of utilities shall also be recorded. The declaration shall describe the utilities that will be placed by the subdivider, verify when the utilities will be installed and state that Valley County will have no responsibility for the installation or maintenance of utilities. If all utilities are not installed prior to recordation of the plat, a note shall be placed on the face of the plat that states: "Utilities have not been installed at the time of recordation of this plat".
- E. **Connection To Public Road Required:** The county shall not accept any new subdivision unless the streets within the subdivision, whether public or private, are connected directly to an existing public road. In the event the subdivision is not connected to a public road with an approved minimum standard as determined by the Valley County Road Director, then the subdivider shall construct, or guarantee the construction as provided by this title, a connector road to county standards, either private roads or public roads, which shall provide access to the subdivision. All subdivisions shall be required to be accessed by a road system that meets the minimum standard as determined by the Valley County Road Director. When access has historically been provided through the subdivision to other ownerships, the subdivider shall provide for continuation of the public right of way.
-

SUMMARY:

Compatibility Rating: Staff's compatibility rating is a +25.

The Planning and Zoning Commission should do their own compatibility rating prior to the meeting (form with directions attached).

STAFF COMMENTS / QUESTIONS:

1. This site is within the Cascade Rural Fire District.
2. This site is not within an irrigation district nor a herd district.
3. Wetlands shall be designated on the final plat. There is a minimum 30-ft setback from high water line.
4. Frontage on a public or private road shall not be less than thirty feet (30') for each lot or parcel. The lot width at the front building setback line shall not be less than ninety feet (90').
5. A revised preliminary plat showing 30-ft frontage for Lot 1 is required.
6. A shared driveway maintenance agreement must be recorded.

- Responses

Conditions of Approval

1. The application, the staff report, and the provisions of the Land Use and Development Ordinance are all made a part of this permit as if written in full herein.
2. Any change in the nature or scope of land use activities shall require an additional Conditional Use Permit.
3. The final plat shall be recorded within two years, or this permit will be null and void.
4. The issuance of this permit and these conditions will not relieve the applicant from complying with applicable County, State, or Federal laws or regulations or be construed as permission to operate in violation of any statute or regulations. Violation of these laws, regulations or rules may be grounds for revocation of the Conditional Use Permit or grounds for suspension of the Conditional Use Permit.
5. A Declaration of Installation of Utilities shall be recorded and noted on the face of the plat.
6. A letter of approval is required from Cascade Rural Fire District prior to recording the final plat.
7. A shared-driveway maintenance agreement is required prior to recordation and must be noted on the face of the plat.
8. All easements shall be shown on the final plat, including the shared driveway.
9. Wetlands shall be marked as "no-build areas" on final plat.
10. CCR's should address lighting, wildfire prevention, noxious weeds, septic maintenance, hydrant maintenance, fire wise wildland urban interface landscaping requirements, floodplain and wetlands, and limit each lot to one wood burning device. CCR's should also address irrigation and surface water.
11. Shall place addressing numbers at the residences and at the driveway entrance.
12. Must have a fencing plan with neighboring properties if they run livestock for over 30 days per year.
13. The following notes shall be placed in the notes on the face of the final plat:
 - "The Valley County Board of Commissioners have the sole discretion to set the level of service for any public road; the level of service can be changed."
 - "All lighting must comply with the Valley County Lighting Ordinance."
 - "Only one burning device is allowed on each lot."
14. Must participate with proportionate share in maintenance of external fences. Shall be provided for long term in the CCR's.

END OF STAFF REPORT

9-11-1: APPENDIX A, COMPATIBILITY EVALUATION:

A. General: One of the primary functions of traditional zoning is to classify land uses so that those which are not fully compatible or congruous can be geographically separated from each other. The county has opted to substitute traditional zoning with a multiple use concept in which there is no separation of land uses. Proposed incompatible uses may adversely affect existing uses, people, or lands in numerous ways: noise, odors, creation of hazards, view, water contamination, loss of needed or desired resources, property values, or infringe on a desired lifestyle. To ensure that the county can continue to grow and develop without causing such land use problems and conflicts, a mechanism designed to identify and discourage land use proposals which will be incompatible at particular locations has been devised. The compatibility evaluation of all conditional uses also provides for evaluations in a manner which is both systematic and consistent.

B. Purpose; Use:

1. The compatibility rating is to be used as a tool to assist in the determination of compatibility. The compatibility rating is not the sole deciding factor in the approval or denial of any application.
2. Staff prepares a preliminary compatibility rating for conditional use permits, except for conditional use permits for PUDs. The commission reviews the compatibility rating and may change any value.

C. General Evaluation: Completing the compatibility questions and evaluation (form):

1. All evaluations shall be made as objectively as possible by assignment of points for each of a series of questions. Points shall be assigned as follows:

Plus 2 - assigned for full compatibility (adjacency encouraged).

Plus 1 - assigned for partial compatibility (adjacency not necessarily encouraged).

0 - assigned if not applicable or neutral.

Minus 1 - assigned for minimal compatibility (adjacency not discouraged).

Minus 2 - assigned for no compatibility (adjacency not acceptable).

2. Each response value shall be multiplied by some number, which indicates how important that particular response is relative to all the others. Multipliers shall be any of the following:

x4 - indicates major relative importance.

x3 - indicates above average relative importance.

x2 - indicates below average relative importance.

x1 - indicates minor relative importance.

D. Matrix - Questions 1 Through 3: The following matrix shall be utilized, wherever practical, to determine response values for questions one through three (3). Uses classified and listed in the left hand column and across the top of the matrix represent possible proposed, adjacent, or vicinity land uses. Each box indicates the extent of compatibility between any two (2) intersecting uses. These numbers should not be changed from proposal to proposal, except where distinctive uses arise which may present unique compatibility considerations. The commission shall determine whether or not there is a unique consideration.

E. Terms:

DOMINANT ADJACENT LAND USE: Any use which is within three hundred feet (300') of the use boundary being proposed; and

1. Comprises at least one-half ($1/2$) of the adjacent uses and one-fourth ($1/4$) of the total adjacent area; or
2. Where two (2) or more uses compete equally in number and are more frequent than all the other uses, the one with the greatest amount of acreage is the dominant land use; or
3. In all other situations, no dominant land use exists. When this occurs, the response value shall be zero.

LOCAL VICINITY: Land uses within a one to three (3) mile radius. The various uses therein should be identified and averaged to determine the overall use of the land.

F. Questions 4 Through 8:

1. In determining the response values for questions 4 through 8, the evaluators shall consider the information contained in the application, the goals and objectives of the comprehensive plan, the provisions of this title and related ordinances, information gained from an actual inspection of the site, and information gathered by the staff.
2. The evaluator or commission shall also consider proposed mitigation of the determined impacts. Adequacy of the mitigation will be a factor.

Use Matrix Values:

(+2/-2) X 4 _____

1. Is the proposed use compatible with the dominant adjacent land use?

(+2/-2) X 2 _____

2. Is the proposed use compatible with the other adjacent land uses (total and average)?

(+2/-2) X 1 _____

3. Is the proposed use generally compatible with the overall land use in the local vicinity?

Site Specific Evaluation (Impacts and Proposed Mitigation)

(+2/-2) X 3 _____

4. Is the property large enough, does the existence of wooded area, or does the lay of the land help to minimize any potential impacts the proposed use may have on adjacent uses?

(+2/-2) X 1 _____

5. Is the size or scale of proposed lots and/or structures similar to adjacent ones?

(+2/-2) X 2 _____

6. Is the traffic volume and character to be generated by the proposed use similar to the uses on properties that will be affected by proximity to parking lots, on-site roads, or access roads?

(+2/-2) X 2 _____

7. Is the potential impact on adjacent properties due to the consuming or emission of any resource or substance compatible with that of existing uses?

(+2/-2) X 2 _____

8. Is the proposed use compatible with the abilities of public agencies to provide service or of public facilities to accommodate the proposed use demands on utilities, fire and police protection, schools, roads, traffic control, parks, and open areas?

(+2/-2) X 2 _____

9. Is the proposed use cost effective when comparing the cost for providing public services and improving public facilities to the increases in public revenue from the improved property?

Sub-Total (+) _____

Sub-Total (--) _____

Total Score _____

The resulting values for each questions shall be totaled so that each land use and development proposal receives a single final score.

Compatibility Questions and Evaluation

Matrix Line # / Use: #3

Prepared by: CH

YES/NO X Response Value

Use Matrix Values:

(+2/-2) -1 X 4 -4

1. Is the proposed use compatible with the dominant adjacent land use?

Ag- Forest

(+2/-2) +2 X 2 +4

2. Is the proposed use compatible with the other adjacent land uses (total and average)?

S. F. Residential Subdivision

(+2/-2) +1 X 1 +1

3. Is the proposed use generally compatible with the overall land use in the local vicinity?

See 1+2

Site Specific Evaluation (Impacts and Proposed Mitigation)

(+2/-2) +2 X 3 +6

4. Is the property large enough, does the existence of wooded area, or does the lay of the land help to minimize any potential impacts the proposed use may have on adjacent uses?

Yes, it is large and has lots of trees.

(+2/-2) +2 X 1 +2

5. Is the size or scale of proposed lots and/or structures similar to adjacent ones?

It will be for single family residence.

(+2/-2) +2 X 2 +4

6. Is the traffic volume and character to be generated by the proposed use similar to the uses on properties that will be affected by proximity to parking lots, on-site roads, or access roads?

No Impact

(+2/-2) +2 X 2 +4

7. Is the potential impact on adjacent properties due to the consuming or emission of any resource or substance compatible with that of existing uses?

Yes

(+2/-2) +2 X 2 +4

8. Is the proposed use compatible with the abilities of public agencies to provide service or of public facilities to accommodate the proposed use demands on utilities, fire and police protection, schools, roads, traffic control, parks, and open areas?

Yes

(+2/-2) +2 X 2 +4

9. Is the proposed use cost effective when comparing the cost for providing public services and improving public facilities to the increases in public revenue from the improved property?

Very little change.

Sub-Total (+) 29

Sub-Total (--) 4

Total Score +25

The resulting values for each questions shall be totaled so that each land use and development proposal receives a single final score.

Conditional Use # _____

Preliminary / Final / Short Plat Round Valley Harbor Sub

- ☐ 1. We have No Objections to this Proposal.
- ☐ 2. We recommend Denial of this Proposal.
- ☐ 3. Specific knowledge as to the exact type of use must be provided before we can comment on this Proposal.
- ☐ 4. We will require more data concerning soil conditions on this Proposal before we can comment.
- ☒ 5. Before we can comment concerning individual sewage disposal, we will require more data concerning the depth of:
☒ high seasonal ground water ☐ waste flow characteristics
☐ bedrock from original grade ☐ other _____
- ☐ 6. This office may require a study to assess the impact of nutrients and pathogens to receiving ground waters and surface waters.
- ☐ 7. This project shall be reviewed by the Idaho Department of Water Resources concerning well construction and water availability.
- ☐ 8. After written approvals from appropriate entities are submitted, we can approve this proposal for:
☐ central sewage ☐ community sewage system ☐ community water well
☐ interim sewage ☐ central water
☐ individual sewage ☐ individual water
- ☐ 9. The following plan(s) must be submitted to and approved by the Idaho Department of Environmental Quality:
☐ central sewage ☐ community sewage system ☐ community water
☐ sewage dry lines ☐ central water
- ☐ 10. Run-off is not to create a mosquito breeding problem
- ☐ 11. This Department would recommend deferral until high seasonal ground water can be determined if other considerations indicate approval.
- ☐ 12. If restroom facilities are to be installed, then a sewage system MUST be installed to meet Idaho State Sewage Regulations.
- ☐ 13. We will require plans be submitted for a plan review for any:
☐ food establishment ☐ swimming pools or spas ☐ child care center
☐ beverage establishment ☐ grocery store

☒ 14. Application, Test holes, & engineering report Required.
