STAFF REPORT:	C.U.P. 23-25 Acker Tree Service
HEARING DATE:	June 15, 2023
TO:	Planning and Zoning Commission
STAFF:	Cynda Herrick, AICP, CFM Planning and Zoning Director
APPLICANT / PROPERTY OWNER:	Randy Acker PO Box 3, McCall, ID 83638
LOCATION:	13865 Highway 55 Parcel RP17N03E036180 located in the SW ¼ Section 3, T.17N, R.3E, Boise Meridian, Valley County, Idaho.
SIZE:	3-acre parcel
REQUEST:	Mobile Sawmill and Staging/Storage Area for Wood and Equipment
EXISTING LAND USE:	Single-Family Residential Parcel

Randy Acker is requesting approval of a conditional use permit for a mobile sawmill and staging/storage area for wood and equipment associated with a hazard tree service. The applicant states that the property has been used for wood storage for 15+ years.

The existing home would continue to be rented for workforce housing.

This location is within the Lake Fork Village as identified in the Valley County Comprehensive Plan, which states that commercial and industrial uses may be allowed within villages in locations found to be compatible with nearby uses and with the existing village character.

The applicant plans to update the existing non-compliant lighting.

The 3-acre site is addressed at 13865 Highway 55.

FINDINGS:

1. The application was submitted on April 24, 2023.
2. Legal notice was posted in the *Star News* on May 25, 2023, and June 1, 2023. Potentially affected agencies were notified on May 9, 2023. Property owners within 300 feet of the property line were notified by fact sheet sent on May 10, 2023. The notice and application were posted online at www.co.valley.id.us on May 9, 2023. The site was posted on May 25, 2023.
3. Agency comment received:

Mike Reno, Central District Health, has no objections to the proposal. (May 9, 2023)

Garrett de Jong, McCall Fire Chief, replied with requirements for fire extinguishers. (June 7, 2023)

4. Neighbor comment received: *none*
5. Physical characteristics of the site: Relatively flat site with a low-lying brushy area crossing north to south in the middle of the parcel.
6. The surrounding land use and zoning includes:
 - North: C.U.P. 23-15 Big Boy Toys and proposed C.U.P. 23-24 FedEx Hub
 - South: C.U.P. 07-18 Idaho Power Operations Center and Single-Family Residential Parcel
 - East: Approved Commercial Uses (C.U.P. 04-41 Malco, C.U.P. 08-02 NDI Contracting, C.U.P. 17-14 Kesler Office & Shop, C.U.P. 17-16 Redline Recreational Toys) and Grandfathered Use - Coastline
 - West: Agricultural (Irrigated Crop Lane) with a Homesite
7. Valley County Code (Title 9): In Table 9-3-1, this proposal is categorized under:
 - 5. Commercial Uses (d) Area business

Review of Title 9 - Chapter 5 Conditional Uses should be done.

TABLE 5-A STANDARDS FOR CONDITIONAL USES

Use Description	Building Setbacks (feet)				Minimum Lot Area	Max. % Lot Cover	Minimum Street Frontage	Max. Building Height	Minimum Parking Spaces
	Front	Side	Side Street	Rear					
Commercial Use Area Business	30	10	30	30		40	75	35	1 + 1/250 sqft

9-5-3: STANDARDS:

B. Setbacks:

1. Structures Exceeding Three Feet In Height: The setbacks for all structures exceeding three feet (3') in height are specified herein under the site and development standards for the specific use.
2. Highway 55: All structures shall be set back one hundred feet (100') from the right of way line of Highway 55 unless a more restrictive setback is required within other sections of this title.
3. High Water Line: All residential buildings shall be set back at least thirty feet (30') from high water lines. All other buildings shall be set back at least one hundred feet (100') from high water lines.
4. Front Yards: Front yards shall be determined by the structure establishing the principal use on the property and the location of the access street or road.
6. Measurement: All building setbacks shall be measured horizontally, on a perpendicular to the property line, to the nearest corner or face of the building including eaves, projections, or overhangs

9-5A-1: GRADING:

- A. Permit Required: Grading to prepare a site for a conditional use or grading, vegetation removal, construction or other activity that has any impact on the subject land or on adjoining properties is a conditional use. A conditional use permit is required prior to the start of such an activity.
- D. Wetlands: Grading or disturbance of wetlands is subject to approval of the U.S. corps of engineers under the federal clean water act. The federal permit, if required, shall be part of the conditional use permit.
- E. Site Grading Plan:
 1. The conditional use permit application shall include a site grading plan, or preliminary site grading plan for subdivisions, clearly showing the existing site topography and the proposed final grades

with elevations or contour lines and specifications for materials and their placement as necessary to complete the work. The plan shall demonstrate compliance with best management practices for surface water management for permanent management and the methods that will be used during construction to control or prevent the erosion, mass movement, siltation, sedimentation, and blowing of dirt and debris caused by grading, excavation, open cuts, side slopes, and other site preparation and development. The plan shall be subject to review of the county engineer and the soil conservation district. The information received from the county engineer, the soil conservation district, and other agencies regarding the site grading plan shall be considered by the planning and zoning commission and/or the board of county commissioners in preparing the conditions of approval or reasons for denial of the applications.

- F. Land Surfaces Not Used For Roads, Buildings And Parking: All land surfaces not used for roads, buildings and parking shall be covered either by natural vegetation, other natural and undisturbed open space, or landscaping.
- G. Stormwater Management Plan: Prior to issuance of building permits, the administrator must receive a certification from the developer's engineer verifying that the stormwater management plan has been implemented according to approved plans.

9-5A-2: ROADS AND DRIVEWAYS:

- B. Access Roads Or Driveways: Residential developments, civic or community service uses, and commercial uses shall have at least two (2) access roads or driveways to a public street wherever practicable.
- E. Access To Highway 55: Access to Highway 55 shall be limited at all locations and may be prohibited where other access is available. An access permit from the Idaho transportation department may be required.

9-5A-3: PARKING AND OFF STREET LOADING FACILITIES:

- A. Site Plan: The site plan for a conditional use permit shall include a detailed scale drawing showing the parking area plan including driveways, parking spaces, setbacks, landscaping, buildings, vehicle maneuver areas including firetrucks and refuse collection trucks, snow storage, and drainage.

9-5A-4: LANDSCAPING:

- A. Purpose And General Regulations
 - 3. General Regulations
 - f. Use Of Landscaped Areas: Landscaped areas shall not be used for parking of vehicles, display of merchandise or other uses detrimental to the landscaping.
 - 4. Maintenance:
 - a. Responsibility For Maintenance: The landscape areas on site, as well as in the right of way, shall be maintained by the owner or owner's association (should the property be subdivided) or the lessee of the site. Any areas designated and intended for the purposes of on site water retention shall be maintained and reserved for that specific purpose. Any alteration or deterioration of those areas shall be considered a violation of this title and any applicable ordinance.
 - b. Replacement Of Plant Material: Any plant material that does not survive shall be replaced within thirty (30) days of its demise.
 - c. Removal Or Destruction Of Landscape Material: The removal or destruction of landscape material previously approved by the county shall constitute a violation of this title. Replacement of landscape material shall be of like size as that which was removed or destroyed.
 - d. Maintained In Accordance With Site And/Or Landscape Plan: Landscaping, irrigation systems, walls, screening devices, curbing and lighting shall be reasonably maintained in accordance with the approved site and/or landscape plan. Plant material shall not be severely pruned such that the natural growth pattern or characteristic forms are significantly altered.
 - e. Modification And/Or Removal Of Existing Landscaping: Modifications and/or removal of existing landscaping shall require prior approval.
 - f. Lack Of Maintenance: The lack of maintenance shall constitute a violation of this title.
- B. Landscaping; Standards Of Design:

1. Minimum Requirements: Each site to be developed under a conditional use permit shall be required to provide landscape areas equal to or exceeding the following minimum amounts:
 - b. Service/Commercial Use: Each site for proposed service/commercial use shall have a minimum of fifteen percent (15%) of the net site/lot area in landscaping.
 - d. Additional Landscaping: In addition to the minimum on site landscaping, there shall be landscaping in the entire area of the right of way, between street property line and back of street curb, road, back slope, or fill slope, except for approved driveways, walkways, bike paths, and snow storage areas.
5. Commercial, Office Or Industrial Use Adjacent To Residence: Where a commercial, office or industrial user of over fifty thousand (50,000) square feet building area is located adjacent to a residence, the landscape buffer described in subsection B3 of this section shall be increased to fifteen feet (15') (adjacent to that user), with two (2) rows of trees along the interior side of the property line. Each row is to contain minimum fifteen (15) gallon trees spaced fifteen feet (15') on center, staggered for maximum effect in buffering the two (2) uses.
6. Criteria For Trees Along Street Frontage: Trees shall be required along all street frontages according to the following criteria:
 - a. A minimum of one tree shall be planted for every twenty five feet (25') of linear street frontage. The trees may be grouped or planted in groves;
 - b. Fifty percent (50%) shall be twenty four inch (24") box size or larger with the balance being minimum fifteen (15) gallon size;
 - c. The trees selected shall be compatible with the overall site and landscape plan as well as adjacent sites.
7. Standard Tree Planting Detail: All trees shall be planted and staked in accordance with the "Standard Tree Planting Detail" diagram in section 9-5-4 of this chapter. Plant sizes to be in accordance with Nurseryman Association standards.
8. On Site Water Retention Areas: All on site water retention areas, other than paved surfaces, shall be entirely landscaped and shall comply with the following criteria:
 - a. The retention areas shall not occupy more than sixty seven percent (67%) of the on site street frontage landscape area;
 - b. All retention areas shall maintain slopes no steeper than three to one (3:1).
9. Mounding And Berming: All mounding and berming shall have slopes no steeper than three to one (3:1).
10. Ground Cover: A minimum of fifty percent (50%) of the landscaped areas is to be planted with vegetative ground cover. Minimum size and spacing to be one gallon size plants at a maximum three feet (3') on center.

9-5A-5: FENCING:

- A. Substituted For Planting Screens: Fencing may be substituted for planting screens subject to the approval of the staff and the commission.
- B. Separation Or Screening: Fencing shall be installed to provide separation or screening as specified in the site or development standards for the specific use. A sight obscuring fence required by the commission for any conditional use shall be stained or painted a single solid color, shall not be used for advertising, and shall be maintained in good repair.
- D. Random Entry: Fencing shall be installed to secure against random entry into hazardous areas or operations.
- E. Construction And Materials: Fence construction and materials shall be in accordance with commonly accepted good practices to produce a neat appearing durable fence. The location, height, and materials used for constructing a fence shall be approved by the commission and specified in the conditional use permit. Fences required for any conditional use shall be maintained in good repair.
- F. Conditional Use Adjoins Agricultural Uses: Where a conditional use adjoins an agricultural use where animal grazing is known to occur for more than thirty (30) consecutive days per year, the permittee shall cause a fence to be constructed so as to prevent the animals from entering the use area. The permittee shall provide for the maintenance of said fence through covenants, association documents, agreement(s) with the adjoining owner(s), or other form acceptable to the commission prior to approval of the permit so that there is reasonable assurance that the fence will be maintained in functional condition so long as the conflicting uses continue.
- G. Obstruction Of Vision: Sight obscuring fences, hedges, walls, latticework, or screens shall not be constructed in such a manner that vision necessary for safe operation of motor vehicles or bicycles on or entering public roadways is obstructed.

9-5B-1: NOISE:

- A. Commercial Or Industrial Activity: The noise emanating from any commercial or industrial activity shall be muffled so as not to become objectionable due to intermittent beat, frequency or shrillness, and shall not exceed forty (40) decibels between the hours of seven o'clock (7:00) P.M. and seven o'clock (7:00) A.M., and sixty (60) decibels at other hours at the property line if adjacent uses are not the same.

9-5B-2: LIGHTING:**9-5B-3: ELECTRICAL INTERFERENCE:**

Provisions must be made for necessary shielding or other preventive measures against interferences occasioned by mechanical, electrical, electronic, and nuclear equipment, uses or processes with electrical apparatus in nearby buildings or land uses.

9-5B-4: EMISSIONS:

- A. Obnoxious Odors; Toxic Or Corrosive Fumes Or Gases: The emission of obnoxious odors of any kind shall not be permitted, nor the emission of any toxic or corrosive fumes or gases.
- B. Dust: Dust created by an industrial, commercial, or recreational operation shall not be exhausted or wasted into the air. All operations shall be subject to the standards in appendix C, fugitive dust ¹. State air quality permits, when required, may be a condition of approval of the conditional use permit or may be required to be a part of the conditional use permit at the discretion of the commission.
- C. Wood Burning Devices: Wood burning devices shall be limited to one per site. Wood burning devices shall be certified for low emissions in accordance with EPA standards.

9-5B-6: OPEN STORAGE:

All storage shall be located within an area not closer than twenty feet (20') from the street right of way line and shall be enclosed with a heavy wire or board fence not less than six feet (6') high, or by plantings the same height. Lumber, coal, or other combustible material will be fully accessible to firetrucks at all times. Open storage of toxic or hazardous materials shall not be allowed.

9-5B-7: FIRE PROTECTION:

Provisions must be made to implement prefire activities that may help improve the survivability of people and homes in areas prone to wildfire. Activities may include vegetation management around the home, use of fire resistant building materials, appropriate subdivision design, removal of fuel, providing a water source, and other measures. Recommendations of the applicable fire district will be considered.

9-5F-1: COMMERCIAL USES; SITE OR DEVELOPMENT STANDARDS

- A. Minimum Lot Area:
2. Frontage on a public or private road shall not be less than seventy five feet (75') for each lot or parcel.
- B. Minimum Setbacks:
1. The minimum setbacks for neighborhood businesses shall be thirty feet (30') from front, rear, and side street property lines and ten feet (10') from all side property lines.
 2. The minimum setbacks for service and recreation businesses shall be fifty feet (50') from rear, front, and side street property lines and thirty feet (30') from side property lines.
 3. The minimum setbacks for area businesses shall be the same as those for neighborhood businesses. Salvage yards, auto wrecking yards, or commercial agricultural businesses shall be located not less than one thousand feet (1,000') from any residential development, civic or community service use, or other noncompatible commercial use, unless the impacts are adequately mitigated by implementation of standards as approved by the commission. The setbacks will be determined in relation to impact mitigation.
- C. Maximum Building Height And Floor Area:
1. Building heights shall not exceed thirty-five feet (35') above the lower of the existing or finished grade.
 2. The building size or floor area shall not exceed the limitations of subsections [9-5-3A](#) and C of this chapter and title 6, chapter 1 of this code.
 3. No building or combination of buildings may cover more than forty percent (40%) of the lot or parcel, except recreation business buildings may not cover more than one percent (1%) of the lot

and agricultural business buildings may not cover more than twenty percent (20%) of the lot or parcel.

D. Site Improvements:

2. Parking spaces for neighborhood and area businesses shall be provided at the rate of one, plus one per each two hundred fifty (250) square feet of floor area.

SUMMARY:

Compatibility Rating: Staff's compatibility rating is a +8.

The Planning and Zoning Commission should do their own compatibility rating prior to the meeting (form with directions attached).

STAFF COMMENTS / QUESTIONS:

1. This site is within the McCall Fire District and Lake Irrigation District. It is not within a herd district.
2. What are the setbacks to any structure, use area, and parking area?
3. A landscaping plan is required. The submitted site plan shows an area for "Future Landscape Screening (if needed)".
4. Is the water in the ditch that crosses the property used by downstream users? Is it a wetland? A wetland should not be disturbed and an Army Corps of Engineers 404 permit may be required.
5. Valley County Code states that commercial uses shall have at least two access roads or driveways to a public street wherever practicable. Staff does not believe this requirement is practical for this use at this location.
6. If a permit exists from Idaho Transportation Department for this location, the applicant shall submit it to Staff.
7. What is the plan to burn waste materials?

Conditions of Approval

1. The application, the staff report, and the provisions of the Land Use and Development Ordinance are all made a part of this permit as if written in full herein. Any violation of any portion of the permit will be subject to enforcement and penalties in accordance with

Title 9-2-5; and, may include revocation or suspension of the conditional use permit.

2. Any change in the nature or scope of land use activities shall require an additional Conditional Use Permit.
3. The use shall be established within one year of the date of approval, or a permit extension will be required.
4. The issuance of this permit and these conditions will not relieve the applicant from complying with applicable County, State, or Federal laws or regulations or be construed as permission to operate in violation of any statute or regulations. Violation of these laws, regulations or rules may be grounds for revocation of the Conditional Use Permit or grounds for suspension of the Conditional Use Permit.
5. Must have approval letter from McCall Fire Department.
6. Must have an approved Approach Permit from Idaho Transportation Department.
7. A letter of approval is required from Lake Irrigation District.
8. Cannot impede the flow of the irrigation ditch(es). The irrigation ditch and associated maintenance right-of-way must be accessible to the irrigation ditch company and authorized users.
9. No parking allowed in the setback areas.
10. The site must be kept in a neat and orderly manner.
11. All lights shall be fully shielded so that there is not upward or horizontal projection of lights. All existing non-compliant lighting should be brought into compliance within one year of approval of the conditional use permit.
12. The minimum building setbacks shall be thirty feet (30') from front and rear property lines and ten feet (10) from side property lines.
13. Hours of operation are 7:00 a.m. to 7:00 p.m., Monday through Sunday.
14. Landscaping shall be installed prior to October 1, 2023. If landscaping dies, it must be replaced.
15. A minimum of one tree should be planted for every 25 feet of linear street frontage; this can include existing trees on site. The trees may be grouped or planted in groves.
16. All noxious weeds on the property must be controlled.
17. Shall obtain a sign permit for any signs.
18. Shall clearly post the address at the driveway entrance.
19. Must have proper permits for all materials burnt at the site.

END OF STAFF REPORT

Compatibility Questions and Evaluation

Matrix Line # / Use: _____

Prepared by: _____

YES/NO X Response Value

Use Matrix Values:

(+2/-2) X 4 _____

1. Is the proposed use compatible with the dominant adjacent land use?

(+2/-2) X 2 _____

2. Is the proposed use compatible with the other adjacent land uses (total and average)?

(+2/-2) X 1 _____

3. Is the proposed use generally compatible with the overall land use in the local vicinity?

Site Specific Evaluation (Impacts and Proposed Mitigation)

(+2/-2) X 3 _____

4. Is the property large enough, does the existence of wooded area, or does the lay of the land help to minimize any potential impacts the proposed use may have on adjacent uses?

(+2/-2) X 1 _____

5. Is the size or scale of proposed lots and/or structures similar to adjacent ones?

(+2/-2) X 2 _____

6. Is the traffic volume and character to be generated by the proposed use similar to the uses on properties that will be affected by proximity to parking lots, on-site roads, or access roads?

(+2/-2) X 2 _____

7. Is the potential impact on adjacent properties due to the consuming or emission of any resource or substance compatible with that of existing uses?

(+2/-2) X 2 _____

8. Is the proposed use compatible with the abilities of public agencies to provide service or of public facilities to accommodate the proposed use demands on utilities, fire and police protection, schools, roads, traffic control, parks, and open areas?

(+2/-2) X 2 _____

9. Is the proposed use cost effective when comparing the cost for providing public services and improving public facilities to the increases in public revenue from the improved property?

Sub-Total (+) _____

Sub-Total (--) _____

Total Score _____

The resulting values for each questions shall be totaled so that each land use and development proposal receives a single final score.

9-11-1: APPENDIX A, COMPATIBILITY EVALUATION:

A. General: One of the primary functions of traditional zoning is to classify land uses so that those which are not fully compatible or congruous can be geographically separated from each other. The county has opted to substitute traditional zoning with a multiple use concept in which there is no separation of land uses. Proposed incompatible uses may adversely affect existing uses, people, or lands in numerous ways: noise, odors, creation of hazards, view, water contamination, loss of needed or desired resources, property values, or infringe on a desired lifestyle. To ensure that the county can continue to grow and develop without causing such land use problems and conflicts, a mechanism designed to identify and discourage land use proposals which will be incompatible at particular locations has been devised. The compatibility evaluation of all conditional uses also provides for evaluations in a manner which is both systematic and consistent.

B. Purpose; Use:

1. The compatibility rating is to be used as a tool to assist in the determination of compatibility. The compatibility rating is not the sole deciding factor in the approval or denial of any application.
2. Staff prepares a preliminary compatibility rating for conditional use permits, except for conditional use permits for PUDs. The commission reviews the compatibility rating and may change any value.

C. General Evaluation: Completing the compatibility questions and evaluation (form):

1. All evaluations shall be made as objectively as possible by assignment of points for each of a series of questions. Points shall be assigned as follows:
 - Plus 2 - assigned for full compatibility (adjacency encouraged).
 - Plus 1 - assigned for partial compatibility (adjacency not necessarily encouraged).
 - 0 - assigned if not applicable or neutral.
 - Minus 1 - assigned for minimal compatibility (adjacency not discouraged).
 - Minus 2 - assigned for no compatibility (adjacency not acceptable).
2. Each response value shall be multiplied by some number, which indicates how important that particular response is relative to all the others. Multipliers shall be any of the following:
 - x4 - indicates major relative importance.
 - x3 - indicates above average relative importance.
 - x2 - indicates below average relative importance.
 - x1 - indicates minor relative importance.

D. Matrix - Questions 1 Through 3: The following matrix shall be utilized, wherever practical, to determine response values for questions one through three (3). Uses classified and listed in the left hand column and across the top of the matrix represent possible proposed, adjacent, or vicinity land uses. Each box indicates the extent of compatibility between any two (2) intersecting uses. These numbers should not be changed from proposal to proposal, except where distinctive uses arise which may present unique compatibility considerations. The commission shall determine whether or not there is a unique consideration.

E. Terms:

DOMINANT ADJACENT LAND USE: Any use which is within three hundred feet (300') of the use boundary being proposed; and

1. Comprises at least one-half ($1/2$) of the adjacent uses and one-fourth ($1/4$) of the total adjacent area; or
2. Where two (2) or more uses compete equally in number and are more frequent than all the other uses, the one with the greatest amount of acreage is the dominant land use; or
3. In all other situations, no dominant land use exists. When this occurs, the response value shall be zero.

LOCAL VICINITY: Land uses within a one to three (3) mile radius. The various uses therein should be identified and averaged to determine the overall use of the land.

F. Questions 4 Through 9:

1. In determining the response values for questions 4 through 9, the evaluators shall consider the information contained in the application, the goals and objectives of the comprehensive plan, the provisions of this title and related ordinances, information gained from an actual inspection of the site, and information gathered by the staff.
2. The evaluator or commission shall also consider proposed mitigation of the determined impacts. Adequacy of the mitigation will be a factor.

Response Value

Use Matrix Values:

(+2/-2) -2 X 4 -8

1. Is the proposed use compatible with the dominant adjacent land use?

Area Business

(+2/-2) +2 X 2 +4

2. Is the proposed use compatible with the other adjacent land uses (total and average)?

Agriculture

(+2/-2) -1 X 1 -1

3. Is the proposed use generally compatible with the overall land use in the local vicinity?

See 14 & 24 same residential

Site Specific Evaluation (Impacts and Proposed Mitigation)

(+2/-2) -1 X 3 -3

4. Is the property large enough, does the existence of wooded area, or does the lay of the land help to minimize any potential impacts the proposed use may have on adjacent uses?

Small, flat w/ little vegetation

(+2/-2) +2 X 1 +2

5. Is the size or scale of proposed lots and/or structures similar to adjacent ones?

Yes

(+2/-2) +2 X 2 +4

6. Is the traffic volume and character to be generated by the proposed use similar to the uses on properties that will be affected by proximity to parking lots, on-site roads, or access roads?

Yes

(+2/-2) +2 X 2 +4

7. Is the potential impact on adjacent properties due to the consuming or emission of any resource or substance compatible with that of existing uses?

Will be some noise, but no houses in close proximity

(+2/-2) +2 X 2 +4

8. Is the proposed use compatible with the abilities of public agencies to provide service or of public facilities to accommodate the proposed use demands on utilities, fire and police protection, schools, roads, traffic control, parks, and open areas?

Yes, if a fire lane stays open

(+2/-2) +1 X 2 +2

9. Is the proposed use cost effective when comparing the cost for providing public services and improving public facilities to the increases in public revenue from the improved property?

Will be little if of revenues but is a needed service.

Sub-Total (+) 20

Sub-Total (-) 12

Total Score +8

The resulting values for each questions shall be totaled so that each land use and development proposal receives a single final score.

CUP 23-25 Acker Tree Service

From: Garrett de Jong <garrett@mccallfire.com>

Sent: Wednesday, June 7, 2023 3:20 PM

To: Cynda Herrick <cherrick@co.valley.id.us>

Subject: CUP 23-25 Acker Tree Service

Hi Cynda,

In accordance with Section 906 of the 2018 International Fire Code, the operator of the business shall have At least (1) 5lb ABC portable fire extinguisher mounted on each floor of the dwelling unit, in a conspicuous, unobstructed, unobscured location, which shall be hung between four and five feet above the floor and no further than 75 feet to any point on the floor. Extinguishers shall be serviced and service tagged annually by an approved company.

I do not have any other comments regarding the CUP 23-25 Acker Tree Service application.

Thank you,

Garrett
