

PUBLIC INFORMATION NOTICE / DRAFT PRESS RELEASE

November 3, 2025

Public Meeting Scheduled to Review Sewer Siphon Relocation Plans in Seymour

The Naugatuck Valley Council of Governments (NVCOG) will host a public information meeting to review plans and receive feedback on the proposed relocation of two sewer siphons in the Town of Seymour. The meeting will take place on Monday, November 17, 2025, at 6:00 p.m. in the Norma Drummer Room of Seymour Town Hall, 1 First Street, Seymour, Connecticut. Those interested in a virtual option can join the meeting using the link: <https://bit.ly/ssrp-111725>. Individuals with limited internet access can listen to the meeting by calling +1 929 205 6099 and entering the Meeting ID when prompted: 882 0784 2649.

In coordination with the Seymour Water Pollution Control Authority (WPCA), NVCOG is advancing efforts to relocate the sewer siphons that currently convey untreated wastewater to the Seymour Wastewater Treatment Facility. The relocation is necessary to support the removal of the Kinneytown Dam and the restoration of that portion of the Naugatuck River.

CDM Smith has been retained by NVCOG to design and engineer the relocation and installation of the new siphons. The estimated \$11 million project is part of the overall Kinneytown Dam removal and river restoration effort and will not be funded by the Town of Seymour or the Seymour Water Pollution Control Authority (WPCA).

CDM Smith has reached a key point in the design process, with draft plans now ready for public presentation and input. During the meeting, three alternative designs for the siphon relocation will be presented for review and discussion.

Following the WPCA's formal receipt of the draft plans at its November 3 meeting, this public session will serve as the final opportunity for stakeholder input prior to the WPCA's anticipated consideration and potential adoption of a preferred alternative at its December 1, 2025, meeting.

For additional information, please visit: <https://nvcogct.gov/project/kinneytown-dam-removal-seymour-sewer-siphon-relocation/>.

Language assistance is available to the public at no cost. For language assistance requests contact Desira Blanchard, Communications and Community Engagement Coordinator with the Naugatuck Valley Council of Governments, at dblanchard@nvcogct.gov or at 203-757-0535. Requests should be made at least 5 business days prior to the meeting.
