ITEM #8: Discussion and possible action regarding blight fine for 3 Lynn Terrace

Gina Ovesny, 1005 Howe Avenue, Shelton, discussed the chain of events since last year regarding 3 Lynn Terrace. She is the Executrix of her dad's estate. She discussed the situation with an eviction of a family member. She stated everything was out of her hands because she was waiting for a Power of Attorney or Executrix designation. She had a hearing in March for Blight. She recently sold the property and will be closing on it soon. She asked the board if they could reduce the fine.

John McKenzie spoke about his memo regarding the case and conditions of the property at this point. There was a Blight Hearing on March 18th and the citation was up to \$10,300 at that point. Blighted conditions have not changed and, as of current date, the fine is at \$24,000.

Fred and Trisha suggested reducing it at least to the point where she was capable to do things.

Jim Baldwin stated that Johns memo outlined exactly as the Blight Ordinance is to be followed. There was a fire situation and because of circumstances, the town fenced the property and placed a lien on the property for securing the property. She did have extenuating circumstances with father's estate and a family member. He discussed the hearing. John received as much cooperation as possible. Fred suggested reducing the fine to \$5,500 and ultimately the board agreed on \$5,900.

The new owners of the property have a grace period of 30 days under the blight ordinance to get it cleaned up.

- Motion to reduce the blight fine for 3 Lynn Terrace to \$5,900.00 in accordance with the discussion, as long as the property is sold within 30 days and the fine is paid in full.

ITEM #9: Discussion and possible action regarding blight fine for 112 Skokorat Street

John McKenzie discussed the circumstance with this property. The property has been abated and blighted conditions are no longer present as of July 31, 2025.

The blight fine is \$6,200.

The property owner, Linda Gombos, discussed her extenuating circumstances. She asked for the fine to be reduced by whatever they can do.

The board discussed the chain of events and timeline regarding the notices and the communication between the homeowner and the Blight Enforcement Officer.

Based on the timeframe she potentially needed, requesting a hearing would not have benefited her due to her circumstances. From June 23rd through last inspection of July 31st, the property started to get cleaned up.

Jim stated this property was cleaned up within 3 weeks. He suggested reducing the fine by 21 days.

- We are putting bid specs out for the gutters at the library to have committed 80,000.00 the town will pay for the rest, we figured it may be around 100 – 120,000.00 there are limited people that can do this type of repair work. The gutter is built into the roof

- Audit Update – FY24 & FY25:
 - I met with the new town auditors and was debriefed on the FY24 audit. The auditor was extremely pleased with the condition of Seymour's books and its overall financial state. There were major weaknesses determined. We have a surplus of just over \$1.2 million, largely due to the Town's Finance Director and his strategic investment approach. Preparations for FY25 are underway. The auditors will begin work with the Board of Education next week and will move to Town operations in September. We have already started uploading information into the audit portal, with the goal of completing the process by mid-November. This timeline ensures we are fully prepared for our upcoming presentation to S&P for our bond rating in connection with the Bungay School project.
 - One of the minor findings on the audit was the department is short staffed. The HR and Finance Director along with the Accounting Manager interviewed several people for the AP position that has been vacant, they agreed on a candidate, sent an offer letter and the person accepted and will be starting on the 25th of August. The other minor finding was the time manner in which they received information but this was due to the department being short staffed.

Seymour Flood – One-Year Update

- On August 19, it will be one year since the flood that impacted Seymour. In total, 16 businesses and 14 homes were affected. Today, all but one business has reopened, our roads have been

repaired, the home owners who lost their home are officially home and we are still working on embankments and waiting on answers for Hoadley's pond. FEMA has approved all of our paperwork, and the process for Seymour is complete. Unfortunately, some of our surrounding towns that were also affected have not been as fortunate—many are still submitting paperwork and awaiting responses.
